

Sports Premium Funding 16/17

In the year 2016/2017 the school has been allocated a budget of £8500 (**final budget of £8594 received**) to assist with the delivery, opportunity and availability of sport and physical education. Detailed below is how we propose to spend our funding. As the year develops, we may review in order to meet the needs of the school.

Development Priorities	Actions	Funding	Review	Impact
Swimming and water confidence	Continue to liaise with Samuel Ryder Academy to facilitate swimming lessons and water confidence for all year 2 pupils	Cost of pool hire and specialist teacher for 1 hour per week (£2400) Cost of additional adult in the water to support less confident children in the water (£180)	April 2017	Children attending swimming on a half termly rota each week, lessons facilitate all learners and abilities. Water confidence developed for children who have never experienced swimming. Developed swimming strokes of those that can already swim. 90% can now swim without floatation. This initiative also supports the children when they move to the junior school and continue with swimming lessons enabling children to spend less time in the learner pool and progressing to swim 25m by the end of year 3.
Play leader	New play leader appointed to develop and lead physical activities and play during lunch times	Cost of play leader for 1 hour 20 min daily (£2395)	April 2017	The role is working well and children are well organised at lunchtime. Play equipment is used more effectively. Red card incidents have reduced.
Up-skilling sessions for teachers	Two terms of up skilling for teachers linked to indoor and outdoor activities including gymnastics, dance and athletics. 2 hours per week on a rolling cycle throughout the school.	Cost of sports coach working 2 x hours per week (£3201)	April 2017	Teachers skills developed, especially NQT where PE was a specific focus for development. Range of skills developed and sports coach is having a positive impact on the children as a good role model for sport development.
Lunch club Provision	To provide a physical activity session to specific children to develop gross motor movement and also for children who are unable to access clubs	Cost of sports coach to lead session 30 mins per week (£350)	April 2017	Specific children have attended, selected by the class teacher to either develop better gross motor skills or to access a physical club during school time. Pupils who have attended have benefitted from the small group provision and have made progress in

				both their physical and social skills.
Play equipment for lunch time provision	New equipment to enhance and develop physical activity at lunch times	Cost of additional resources (£200)	September 2016	Range of activity equipment purchased including scoops and balls, stilts, skipping ropes and balls. Enabled children to develop gross motor skills at lunch and to develop and build on skills taught in PE lessons.
Music and Movement	Class session weekly to develop gross motor movement alongside music to further develop moving and handling and being imaginative	Cost of adult to lead each session ½ per week per class, started January 2017 (£200)	January 2017	Range of movements explores and developed, children introduced to different ways of moving and refining movement. A different dimension to moving.
Bikes for EYFS & lunchtime provision	Additional bikes to supplement EYFS, different style of bikes to develop different gross motor movement	Cost of purchase	January 2017	
Experience / taster sessions	Schedule opportunities for children to develop a range of activities that introduce new sports and skills	Cost as appropriate to sessions	April 2017	

In addition to the above the school will use the collection of Sainsbury's active kids vouchers to replenish sports equipment and lunchtime equipment.
